

Learn iWeb '09

Create your own web site!

It's easier than you think, using iWeb '09 and your Mac computer

Web sites are your internet storefront, but it can be costly to hire someone to design and maintain your site. Many web design tools are difficult to learn and use. So what are your options?

Apple's iWeb '09 is a powerful and easy-to-use application for designing and publishing web sites. Steve Sande can help you jump start your web site development through two short hands-on classes here in Denver.

iWeb 101: The Basics of iWeb '09 and **iWeb 102: Doing More with iWeb '09** use Steve's best-selling Mac book, *Take Control of iWeb*, to take you step by step through everything you'll need to know to create and publish your personal or small business web site.

A copy of Steve's book is included with your tuition for in-class use and future reference.

About Steve Sande

Your instructor, Steve Sande, has been using Macs since 1984. A certified Mac consultant, professional trainer, and author, Steve wrote the first edition of *Take Control of iWeb* in 2006.

Now in its third edition, *Take Control of iWeb* is a best-selling title that takes iWeb novices from installing the application to adding social media to personal and small business web sites.

Steve is partnering with Denver-based MacHelp4Me to provide local Mac users with high-quality iWeb training based on the book that has taught thousands of people worldwide how to build and publish their own web sites.

MAC 101: THE BASICS OF IWEB '09

In this 3-hour class, you'll learn all the basics on how to use iWeb to build an attractive and functional web site. Want your own domain name (the ".com" address)? I'll show you how.

We'll talk about the best way to host your web site, and you can even get a free month of web hosting as part of the class.

You'll discover how easy and fun it is to create your own web site complete with photo and video galleries, a blog, and even more professional features.

Steve also teaches you how to keep your site up-to-date and fresh, to keep friends or customers coming back to see what's new with you or your company.

MAC 102: DOING MORE WITH IWEB '09

Go further with iWeb '09

Once you've learned the basics of iWeb '09, you can learn even more tricks that will turn you into an iWeb pro!

In this 3-hour class, you'll learn how to customize your web site to your needs using the many built-in tools in iWeb '09.

Want to create your own web store? You can sell items through your a store created within iWeb '09. Would you like to integrate social media such as Twitter into your site? I'll show you how!

Web widgets are a tool created by Apple to add functionality to iWeb sites. You'll learn how to take advantage of iWeb '09's web widgets to make your web site even more useful and attractive to your friends and customers.

Through this hands-on experience, you'll gain knowledge that can take you well beyond the basics of iWeb '09.

This class is a great follow-on for people who have attended the iWeb 101 class, or who already have some limited experience with iWeb '09 and wish to improve their skills. Ask about our discount for people who attend both iWeb classes!

REQUIREMENTS

To keep our class costs low, you need to provide your own Mac and have iWeb '09 pre-installed on your computer.

What if I can't bring my Mac?

We will have a limited number of computers available for use. Just let us know that you need a computer when you register. However, we highly recommend that if you own an Apple MacBook, you should use it for the class.

How can I tell what version of iWeb is on my Mac?

Launch iWeb, and then click on the iWeb menu and choose About iWeb. You should have iWeb '09 installed.

What if I have an older version of iWeb?

You'll need to purchase an update before the class. iWeb '09 is available as part of iLife '09 at your nearby Apple Store for \$79, or through online retailer Amazon.com for about \$50.

I have a PC. Can I take this class?

Sorry. iWeb doesn't run on Windows PCs. If you're about to get a Mac and want to learn iWeb, we can have a Mac made available for you.

How do I sign up?

Just visit the Raven Solutions web site at <http://im4macs.com> and click on the Mac Classes link at the top of the page for more information about how to sign up and pay for the class.
